

Ashot's Capabilities

Machining	Gear cutting	Heat Treatment	Surface finish Coating	Surface treatment	NDT	QA	Assembling and testing	Engineering
Turning	Hobbing	Hardening & Tempering	Copper	Shot peening	MPI	CMM	Functional tests	R&D
Milling	Skiving	Carburizing & Quenching	Cadmium	Glass Beads	FPI	Optical measurement	Test benches	Concurrent Engineering
Deep-Hole Drilling & Boring	Shaping	Nitriding & Carbo-Nitriding	Cadmium Titanium	Alumina	Nital - Etch	Balancing		Manufacturing Engineering
Bottle boring	Broaching	Vacuum Tempering	Electro-less Nickel		Ultrasonic	Calibration		
Grinding	Grinding	Hardening - Induction	Chrome		Dye Penetrant	Gear Testing		
Honing	Lapping	Quenching Press	Phosphatization			Metallurgical Lab		
Threads Grinding		Deep Cooling	Black Oxide			Chemical Lab		
Tool manufacturing		Solution Treatment (Aluminum)	Alodine			Mechanical Lab		
			Painting
